

Nonprofits & Associations

Complex Challenges | Innovative Solutions

MPS understands the unique challenges leaders of nonprofit organizations face: balancing advocacy and service missions against unpredictable funding, limited resources, and a shifting environment, all while adhering to the strategic goals and providing relevant services. MPS consultants approach complex issues with insight, perceptiveness, and creativity to help our clients develop sustainable solutions.

Portfolio Analysis

Find the right balance for your programs, staff, and advocacy within your resource constraints.

Budget Process & Execution

Develop a reliable and accessible system for projecting your revenues and expenses.

Meeting Facilitation

Guide your teams through difficult or contentious topics to constructive resolutions.

Market Research

Understand the needs of your stakeholders, and how to meet those needs.

Strategic Planning

Optimize resources and activities to reach your long-term goals.

Project Management

Keep your projects on time and on budget through smart planning.

Stakeholder Engagement

Identify strategies to effectively communicate changes and new programs to those who will benefit.

Associations

Balance advocacy and mission with funding and resources, while developing new services and long-term strategies.

Organizational Diagnostic

To pinpoint what is constricting the effectiveness of your organization, MPS has developed an Organizational Effectiveness Diagnostic. Once we have determined the problem area(s), we can help you map out the best path forward. Contact us to request a diagnostic today.

MPS Assists

M Powered Strategies consultants provide pro bono services to help nonprofit organizations achieve their goals and manage fundamental organizational needs. Our experienced project managers and consultants work closely with clients to design and execute customized projects that allow them to transform their operations and maximize impact.
