

## Workshops for Effective Forest Leadership Teams

### A Simple, Pre-Approved Way for US Forest Service Supervisors to Succeed Faster

- Struggling with knowing what goals to manage?
- Having trouble keeping the FLT focused on the same goals?
- Churning on what to prioritize?
- Unsure of which voices to listen to?

*If any of these are true, you are not alone. We can help.*

Forest Supervisors follow the top priorities of the agency but can wrestle with identifying and planning their own priorities. With barely the time or capacity to take on more amid the incessant demands for communication, reporting, and accountability, maintaining focus with the leadership team is difficult.

*MPS works with leadership teams that want to work more cohesively toward their common, Forest-wide goals.* Through workshops and coaching, we empower your Forest Leadership Team to make the most of your talent, workforce, and budget, to maximize output in the limited time you have to solve problems and make decisions.

MPS takes teams from groups that simply meet, to those that are organized to plan and deliver outcomes with a:

- **common purpose**
- in an **environment of trust.**

#### DEFINE

the forest of the future  
for the next budget  
cycle & beyond

#### DETERMINE

your priorities & **ALIGN** your  
work to them.

#### TRANSLATE

leadership into management &  
execution.

#### COMMUNICATE

priorities to the right people, at  
the right time, with the right  
message.

**MPS helps your FLT define vision, strategy, and planning,  
designing team collaborations to reach higher levels of cohesion and effectiveness.**

## Past Performance Leader

MPS has experience with Forest Service management styles, processes, roles, and terms. With energetic, facilitated workshops, team facilitation, and executive coaching in organizational design, MPS can help you arrive at the right solutions for the Forest you manage.
